NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1: Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation: The condensed consolidated financial statements included in this report are unaudited and have been prepared in accordance with United States (“U.S.”) generally accepted accounting principles (“U.S. GAAP”) for interim financial reporting and U.S. Securities and Exchange Commission (“SEC”) regulations. The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by U.S. GAAP. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. In the opinion of management, these financial statements include all adjustments, which are of a normal recurring nature, necessary for a fair statement of the financial position, results of operations, cash flows and the change in equity for the periods presented. The condensed consolidated financial statements for the three and six months ended June 30, 2021, should be read in conjunction with the consolidated financial statements and notes thereto of West Pharmaceutical Services, Inc. and its majority-owned subsidiaries (which may be referred to as “West”, the “Company”, “we”, “us” or “our”) appearing in our Annual Report on Form 10-K for the year ended December 31, 2020 (the “[2020 Annual Report](#)”). The results of operations for any interim period are not necessarily indicative of results for the full year.

West has been actively monitoring the novel coronavirus (“COVID-19”) situation and its impact globally. Throughout the COVID-19 pandemic, production facilities have continued to operate as they had prior to the pandemic, other than for enhanced safety measures intended to prevent the spread of the virus and higher levels of production at certain plant locations to meet additional customer demand. The remote working arrangements and travel restrictions imposed by various governments have had limited impact on our ability to maintain operations, as our manufacturing operations have generally been exempted from stay-at-home orders.

Note 2: New Accounting Standards

Standards Issued Not Yet Adopted

In March 2020, the FASB issued guidance which provides optional expedients and exceptions to address the impact of reference rate reform where contracts, hedging relationships and other transactions that reference the London Interbank Offered Rate (“LIBOR”) or another reference rate need to be discontinued. This guidance was effective upon issuance and generally can be applied through December 31, 2022. We are currently evaluating the impact to our financial statements, the transition, and disclosure requirements of this guidance.

Note 3: Revenue

Our revenue results from the sale of goods or services and reflects the consideration to which we expect to be entitled in exchange for those goods or services. We record revenue based on a five-step model, in accordance with ASC Topic 606. Following the identification of a contract with a customer, we identify the performance obligations (goods or services) in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize the revenue when (or as) we satisfy the performance obligations by transferring the promised goods or services to our customers. A good or service is transferred when (or as) the customer obtains control of that good or service.

The following table presents the approximate percentage of our net sales by market group:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Biologics	41 %	28 %	40 %	28 %

Contract Assets and Liabilities

The following table summarizes our contract assets and liabilities, excluding contract assets included in accounts receivable, net:

	(\$ in millions)
Contract assets, December 31, 2020	\$ 10.9
Contract assets, June 30, 2021	10.1
Change in contract assets - increase (decrease)	\$ (0.8)
Deferred income, December 31, 2020	\$ (57.1)
Deferred income, June 30, 2021	(40.0)
Change in deferred income - decrease (increase)	\$ 17.1

Starting in the third quarter of 2020, the Company entered into new capacity reservation agreements, which include the receipt of up-front cash. The decrease in the deferred income balance is primarily due to the revenue recognition associated with the capacity reservation agreements, which is to be recognized over the next 1 to 2 years.

During the six months ended June 30, 2021, \$28.4 million of revenue was recognized that was included in deferred income at the beginning of the year.

The majority of the performance obligations within our contracts are satisfied within one year or less. Performance obligations satisfied beyond one year include those relating to a nonrefundable customer payment of \$20.0 million received in June 2013 in return for the exclusive use of the SmartDose® technology platform within a specific therapeutic area. As of June 30, 2021, there was \$4.3 million of unearned income related to this payment, of which \$0.9 million was included in other current liabilities and \$3.4 million was included in other long-term liabilities. The unearned income is being recognized as income on a straight-line basis over the remaining term of the agreement. The agreement does not include a future minimum purchase commitment from the customer.

Note 4: Net Income Per Share

The following table reconciles the shares used in the calculation of basic net income per share to those used for diluted net income per share:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net income	\$ 187.3	\$ 91.2	\$ 338.5	\$ 165.5
Weighted average common shares outstanding	74.0	73.8	74.0	73.8
Dilutive effect of equity awards, based on the treasury stock method	1.7	1.7	1.8	1.7
Weighted average shares assuming dilution	75.7	75.5	75.8	75.5

During the three months ended June 30, 2021 and 2020, there were 0.1 million and 0.2 million shares, respectively, from stock-based compensation plans not included in the computation of diluted net income per share because their impact was antidilutive. There were 0.1 million and 0.2 million antidilutive shares outstanding during the six months ended June 30, 2021 and 2020, respectively.

In December 2020, we announced a share repurchase program for calendar-year 2021 authorizing the repurchase of up to 631,000 shares of our common stock from time to time on the open market or in privately-negotiated transactions as permitted under Exchange Act Rule 10b-18. The number of shares to be repurchased and the timing of such transactions will depend on a variety of factors, including market conditions. There were no shares purchased during the three months ended June 30, 2021. During the six months ended June 30, 2021, we purchased 479,000 shares of our common stock under the program at a cost of \$137.1 million, or an average price of \$286.23 per share. This share repurchase program is expected to be completed by December 31, 2021.

Note 5: Inventories

Inventories are valued at the lower of cost (on a first-in, first-out basis) and net realizable value. Inventory balances were as follows:

(\$ in millions)	June 30, 2021	December 31, 2020
Raw materials	\$ 130.2	\$ 133.5
Work in process	65.8	54.9
Finished goods	149.2	132.9
	<u>\$ 345.2</u>	<u>\$ 321.3</u>

Note 6: Leases

A lease exists when a contract conveys to the customer the right to control the use of identified property, plant, or equipment for a period of time in exchange for consideration. The definition of a lease embodies two conditions: 1) there is an identified asset in the contract that is land or a depreciable asset (i.e., property, plant, and equipment); and 2) the customer has the right to control the use of the identified asset. Lease payments included in the measurement of the operating lease right-of-use assets and lease liabilities are comprised of fixed payments (including in-substance fixed payments), variable payments that depend on an index or rate, and the exercise price of a lessee option to purchase the underlying asset if the lessee is reasonably certain to exercise.

The components of lease expense were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(\$ in millions)	2021	2020	2021	2020
Operating lease cost	\$ 3.1	\$ 3.1	\$ 6.2	\$ 6.2
Short-term lease cost	0.3	0.1	0.5	0.3
Variable lease cost	1.4	0.8	2.2	1.6
Total lease cost	\$ 4.8	\$ 4.0	\$ 8.9	\$ 8.1

Supplemental cash flow information related to leases were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
(\$ in millions)	2021	2020	2021	2020
Cash paid for amounts included in the measurement of lease liabilities:				
Operating cash flows from operating leases	\$ 3.1	\$ 3.2	\$ 6.3	\$ 6.4
Right-of-use assets obtained in exchange for new operating lease liabilities	\$ 0.3	\$ 1.8	\$ 0.8	\$ 4.3

As of June 30, 2021 and December 31, 2020, the weighted average remaining lease term for operating leases was 11.0 and 11.1 years, respectively.

As of June 30, 2021 and December 31, 2020, the weighted average discount rate was 3.66% and 3.68%, respectively.

Maturities of operating lease liabilities were as follows:

(\$ in millions) Year	June 30, 2021	December 31, 2020
2021 (remaining period as of)	\$ 6.0	\$ 12.4
2022	10.5	10.4
2023	9.4	9.3
2024	8.7	8.7
2025	6.9	6.9
Thereafter	37.1	37.5
	78.6	85.2
Less: imputed lease interest	(13.3)	(14.7)
Total lease liabilities	\$ 65.3	\$ 70.5

Note 7: Affiliated Companies

At June 30, 2021 and December 31, 2020, the aggregate carrying amount of our investment in affiliated companies that are accounted for under the equity method was \$203.1 million and \$201.9 million, respectively, and the aggregate carrying amount of our investment in affiliated companies that are not accounted for under the equity method was \$8.6 million and \$12.8 million, respectively. We have elected to record these investments, for which fair value was not readily determinable, at cost, less impairment, adjusted for subsequent observable price changes. We test these investments for impairment whenever circumstances indicate that the carrying value of the investments may not be recoverable.

Our purchases from, and royalty payments made to, affiliates totaled \$47.6 million and \$85.6 million, respectively, for the three and six months ended June 30, 2021, as compared to \$27.9 million and \$60.4 million, respectively, for the same period in 2020. As of June 30, 2021 and December 31, 2020, the payable balance due to affiliates was \$18.9 million and \$33.6 million, respectively. The majority of these transactions related to a distributorship agreement with Daikyo that allows us to purchase and re-sell Daikyo products.

Sales to affiliates were \$3.1 million and \$6.0 million, respectively, for the three and six months ended June 30, 2021, as compared to \$2.8 million and \$5.0 million, respectively, for the same periods in 2020. As of June 30, 2021 and December 31, 2020, the receivable balance due from affiliates was \$2.5 million and \$1.4 million, respectively.

Please refer to Note 7, [Affiliated Companies](#), to the consolidated financial statements in our [2020 Annual Report](#) for additional details.

Note 8: Debt

The following table summarizes our long-term debt obligations, net of unamortized debt issuance costs and current maturities. The interest rates shown in parentheses are as of June 30, 2021.

Please refer to Note 8, [Debt](#), to the consolidated financial statements in our [2020 Annual Report](#) for additional details regarding our debt agreements.

Credit Agreement - Credit Facility

At June 30, 2021, the borrowing capacity available under our \$300.0 million multi-currency revolving credit facility (the “Credit Facility”), including outstanding letters of credit of \$2.4 million, was \$297.6 million.

Credit Agreement Amendment - Term Loan

At June 30, 2021, we had \$86.6 million in borrowings under the Term Loan, of which \$2.3 million was classified as current and \$84.3 million was classified as long-term. Please refer to Note 9, [Derivative Financial Instruments](#), for a discussion of the foreign currency hedge associated with the Term Loan.

Note 9: Derivative Financial Instruments

Our ongoing business operations expose us to various risks, such as fluctuating interest rates, foreign currency exchange rates and increasing commodity prices. To manage these market risks, we periodically enter into derivative financial instruments, such as interest rate swaps, options and foreign exchange contracts for periods consistent with, and for notional amounts equal to or less than, the related underlying exposures. We do not purchase or hold any derivative financial instruments for investment or trading purposes. All derivatives are recorded in our condensed consolidated balance sheet at fair value.

Foreign Exchange Rate Risk

We have entered into forward exchange contracts, designated as fair value hedges, to manage our exposure to fluctuating foreign exchange rates on cross-currency intercompany loans. As of both June 30, 2021 and December 31, 2020, the total amount of these forward exchange contracts was Singapore Dollar (“SGD”) 601.5 million and \$13.4 million.

In addition, we have entered into several foreign currency contracts, designated as cash flow hedges, for periods of up to eighteen months, intended to hedge the currency risk associated with a portion of our forecasted transactions denominated in foreign currencies. As of June 30, 2021, we had outstanding foreign currency contracts to purchase and sell certain pairs of currencies, as follows:

(in millions)				
Currency	Purchase	USD	Sell	Euro
USD	38.7		—	32.6
Yen	8,568.0		35.5	38.0
SGD	47.8		28.6	5.8

In December 2019, we entered into a cross-currency swap for \$90 million, which we designated as a hedge of our net investment in Daikyo. The notional amount of the cross-currency swap is ¥9.5 billion (\$86.6 million) and the swap termination date is December 31, 2024. Under the cross-currency swap, we receive floating interest rate payments based on three-month U.S. Dollar (“USD”) LIBOR plus a margin, in return for paying floating interest rate payments based on three-month Japanese Yen (“Yen”) LIBOR plus a margin.

Commodity Price Risk

Many of our proprietary products are made from synthetic elastomers, which are derived from the petroleum refining process. We purchase the majority of our elastomers via long-term supply contracts, some of which contain clauses that provide for surcharges related to fluctuations in crude oil prices. The following economic hedges did not qualify for hedge accounting treatment since they did not meet the highly effective requirement at inception.

From November 2017 through June 2021, we purchased several series of call options for a total of 552,686 barrels of crude oil to mitigate our exposure to such oil-based surcharges and protect operating cash flows with regard to a portion of our forecasted elastomer purchases.

As of June 30, 2021, we had outstanding contracts to purchase 171,634 barrels of crude oil from July 2021 to December 2022, at a weighted-average strike price of \$65.77 per barrel.

Effects of Derivative Instruments on Financial Position and Results of Operations

Please refer to Note 10, [Fair Value Measurements](#), for the balance sheet location and fair values of our derivative instruments as of June 30, 2021 and December 31, 2020.

The following table summarizes the effects of derivative instruments designated as fair value hedges on the condensed consolidated statements of income:

	Amount of (Gain) Loss Recognized in Income for the Three Months Ended June 30,		Amount of (Gain) Loss Recognized in Income for the Six Months Ended June 30,		Location on Statement of Income

For the three and six months ended June 30, 2021 and 2020, there was no material ineffectiveness related to our hedges.

Note 10: Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The following fair value hierarchy classifies the inputs to valuation techniques used to measure fair value into one of three levels:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity’s own assumptions.

The following tables present the assets and liabilities recorded at fair value on a recurring basis:

Deferred compensation assets are included within other noncurrent assets and are valued using a market approach based on quoted market prices in an active market. The fair value of our foreign currency contracts, included within other current and other noncurrent assets, as well as other current and other long-term liabilities, is valued using an income approach based on quoted forward foreign exchange rates and spot rates at the reporting date. The fair value of our commodity call options, included within other current and other noncurrent assets, is valued using a market approach. The fair value of our contingent consideration, included within other current and other long-term liabilities, is discussed further in the section related to Level 3 fair value measurements. The fair value of deferred compensation liabilities is based on quoted prices of the underlying employees’ investment selections and is included within other long-term liabilities. The fair value of the cross-currency swap, included within other non-current assets, is valued using a market approach. Please refer to Note 9, [Derivative Financial Instruments](#), for further discussion of our derivatives. All derivatives are recognized on a gross basis as either assets or liabilities in the balance sheet.

Level 3 Fair Value Measurements

The fair value of the contingent consideration liability related to the SmartDose technology platform (the “SmartDose contingent consideration”) was initially determined using a probability-weighted income approach, and is revalued at each reporting date or more frequently if circumstances dictate. Changes in the fair value of this obligation are recorded as income or expense within other expense (income) in our condensed consolidated statements of income. The significant unobservable inputs used in the fair value measurement of the SmartDose contingent consideration are the sales projections, the probability of success factors, and the discount rate. Significant increases or decreases in any of those inputs in isolation would result in a significantly lower or higher fair value measurement. Sales projections were derived using upside, base and downside forecasted cases for each partnership and applying probability-weighted scenarios of 10%, 50% and 40% to the three cases, respectively, to reflect the likelihood of West meeting the estimated sales projection targets. The probability of success factors included the probabilities of successful FDA approval for each partnership drug, which was estimated in a range of 19% to 100% based on the development phase of each respective drug, and the probability of the successful execution of supply agreements with each partnership, which was estimated in the range of 25% to 100% based on historical, current, and future supply agreements with the respective partnerships. The fair value of this liability utilized a risk-adjusted discount rate of 19% to present value the cash flows. The discount rate is calculated by determining the after-tax required returns on debt and equity and weighting each return by the respective percent of debt and equity to total capital. Key inputs for the discount rate include the risk-free rate on the 20-Year United States Treasury maturity, equity risk premium, company-specific risk premium, pre-tax cost of debt, and U.S. tax rate, among others. As development and commercialization of the SmartDose technology platform progresses, we may need to update the sales projections, the probability of success factors, and the discount rate used. This could result in an increase or decrease to the SmartDose contingent consideration.

The following table provides a summary of changes in our Level 3 fair value measurements:

Other Financial Instruments

We believe that the carrying amounts of our cash and cash equivalents and accounts receivable approximate their fair values due to their near-term maturities.

The estimated fair value of long-term debt is based on quoted market prices for debt issuances with similar terms and maturities and is classified as Level 2 within the fair value hierarchy. At June 30, 2021, the estimated fair value of long-term debt was \$263.9 million compared to a carrying amount of \$251.8 million. At December 31, 2020, the estimated fair value of long-term debt was \$265.7 million and the carrying amount was \$252.9 million.

Note 11: Accumulated Other Comprehensive Loss

The following table presents the changes in the components of accumulated other comprehensive income ("AOCI") (loss), net of tax, for the six months ended June 30, 2021:

Note 13: Stock-Based Compensation

The West Pharmaceutical Services, Inc. 2016 Omnibus Incentive Compensation Plan (the “2016 Plan”) provides for the granting of stock options, stock appreciation rights, restricted stock awards and performance awards to employees and non-employee directors. A committee of the Board of Directors determines the terms and conditions of awards to be granted. Vesting requirements vary by award. At June 30, 2021, there were 2,484,562 shares remaining in the 2016 Plan for future grants.

During the six months ended June 30, 2021, we granted 157,416 stock options at a weighted average exercise price of \$275.02 per share based on the grant-date fair value of our stock to employees under the 2016 Plan. The weighted average grant date fair value of options granted was \$63.19 per share as determined by the Black-Scholes option valuation model using the following weighted average assumptions: a risk-free interest rate of 0.7%; expected life of 5.6 years based on prior experience; stock volatility of 23.9% based on historical data; and a dividend yield of 0.3%. Stock option expense is recognized over the vesting period, net of forfeitures.

During the six months ended June 30, 2021, we granted 36,174 stock-settled performance share unit (“PSU”) awards at a weighted average grant-date fair value of \$329.88 per share to eligible employees. These awards are earned based on the Company’s performance against pre-established targets, including annual growth rate of revenue and return on invested capital, over a specified performance period. Depending on the achievement of the targets, recipients of stock-settled PSU awards are entitled to receive a certain number of shares of common stock. Shares earned under PSU awards may vary from 0% to 200% of an employee’s targeted award. The fair value of stock-settled PSU awards is based on the market price of our stock at the grant date and is recognized as expense over the performance period, adjusted for estimated target outcomes and net of forfeitures.

During the six months ended June 30, 2021, we granted 4,637 stock-settled restricted share unit (“RSU”) awards at a weighted average grant-date fair value of \$279.92 per share to eligible employees. These awards are earned over a specified performance period. The fair value of stock-settled RSU awards is based on the market price of our stock at the grant date and is recognized as expense over the vesting period, net of forfeitures.

Stock-based compensation expense was \$10.3 million and \$16.2 million for the three and six months ended June 30, 2021, respectively. For the three and six months ended June 30, 2020, stock-based compensation expense was \$12.3 million and \$17.7 million, respectively.

Note 14: Benefit Plans

The components of net periodic benefit cost for the three months ended June 30 were as follows:

(\$ in millions)	Pension benefits		Other retirement benefits		Total	
	2021	2020	2021	2020	2021	2020

Net periodic benefit cost	<u>\$ (0.6)</u>	<u>\$ 1.8</u>	<u>\$ (0.9)</u>	<u>\$ (1.0)</u>	<u>\$ (1.5)</u>	<u>\$ 0.8</u>

During the three and six months ended June 30, 2021, we recorded a \$0.1 million and \$0.7 million pension settlement charge, respectively, within other nonoperating (income) expense, as we determined that normal-course lump-sum payments for our U.S. qualified defined benefit pension plan exceeded the threshold for settlement accounting under U.S. GAAP for the year.

Note 15: Other Expense (Income)

Other expense (income) consists of:

Restructuring and Related Charges

In July 2020, our Board of Directors approved a restructuring plan designed to optimize certain organizational structures within the Company to better support our continued growth and business priorities. These changes are expected to be implemented over a period of up to twenty-four months from the date of approval. The plan is expected to require restructuring and related charges of approximately \$15 million to \$17 million. Since its approval, we recorded a net pre-tax amount equal to \$6.8 million in restructuring and related charges associated with this plan.

The following table presents activity related to our restructuring obligations related to our 2020 restructuring plan:

(\$ in millions)	Severance and benefits	Asset-related charges	Other charges	Total
Balance, December 31, 2020	\$ 4.6	\$ —	\$ —	\$ 4.6
Charges	1.0	—	1.2	2.2

In February 2018, our Board of Directors approved a restructuring plan designed to realign our manufacturing capacity with demand. These changes were expected to be implemented over a period of up to twenty-four months from the date of approval. The plan was expected to require restructuring and related charges of approximately \$16 million. Since its approval, we have recorded \$13.7 million in restructuring and related charges associated with this plan. The plan is now considered complete.

The following table presents activity related to our restructuring obligations related to our 2018 restructuring plan:

(\$ in millions)	Severance and benefits	Total
Balance, December 31, 2020	\$ 0.1	\$ 0.1
Cash payments	(0.1)	(0.1)

Contingent Consideration

Contingent consideration represents changes in the fair value of the SmartDose contingent consideration. Please refer to Note 10, [Fair Value Measurements](#), for additional details.

Other Items

During the six months ended June 30, 2021, we recorded an impairment charge of \$2.2 million for one of the Company's cost investments.

During the three and six months ended June 30, 2021, we recorded a net gain of \$1.3 million on the sale of one of the Company's cost investments.

During both the three and six months ended June 30, 2021 and 2020, we recorded development income of \$0.2 million and \$0.4 million, respectively, related to a nonrefundable customer payment of \$20.0 million received in June 2013 in return for the exclusive use of the SmartDose technology platform within a specific therapeutic area. Please refer to Note 3, [Revenue](#), for additional information.

Note 16: Income Taxes

The tax provision for interim periods is determined using the estimated annual effective consolidated tax rate, based on the current estimate of full-year earnings before taxes, adjusted for the impact of discrete quarterly items.

The provision for income taxes was \$32.3 million and \$16.0 million for the three months ended June 30, 2021 and 2020, respectively, and the effective tax rate was 15.3% and 15.6%, respectively. The provision for income taxes was \$61.0 million and \$31.0 million for the six months ended June 30, 2021 and 2020, respectively, and the effective tax rate was 15.8% and 16.4%, respectively.

Note 17: Commitments and Contingencies

From time to time, we are involved in product liability matters and other legal proceedings and claims generally incidental to our normal business activities. We accrue for loss contingencies when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. While the outcome of current proceedings cannot be accurately predicted, we believe their ultimate resolution should not have a material adverse effect on our business, financial condition, results of operations or liquidity.

There have been no significant changes to the commitments and contingencies included in our [2020 Annual Report](#).

Note 18: Segment Information

Our business operations are organized into two reportable segments, Proprietary Products and Contract-Manufactured Products. Our Proprietary Products reportable segment offers proprietary packaging, containment and drug delivery products, along with analytical lab services and other integrated services and solutions, primarily to biologic, generic and pharmaceutical drug customers. Our Contract-Manufactured Products reportable segment serves as a fully integrated business, focused on the design, manufacture, and automated assembly of complex devices, primarily for pharmaceutical, diagnostic, and medical device customers.

The Chief Operating Decision Maker ("CODM") evaluates the performance of our segments based upon, among other things, segment net sales and operating profit. Segment operating profit excludes general corporate costs, which include executive and director compensation, stock-based compensation, certain pension and other retirement benefit costs, and other corporate facilities and administrative expenses not allocated to the segments. Also excluded are items that the CODM considers not representative of ongoing operations. Such items are referred to as other unallocated items and generally include restructuring and related charges, certain asset impairments and other specifically-identified income or expense items. The segment operating profit metric is what the CODM uses in evaluating our results of operations and the financial measure that provides a valuable insight into our overall performance and financial position.

The following table presents information about our reportable segments, reconciled to consolidated totals:

(\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net sales:				
Proprietary Products	\$ 587.3	\$ 399.5	\$ 1,131.0	\$ 773.0
Contract-Manufactured Products	136.4	127.8	263.5	245.9

Consolidated net sales	<u>\$ 723.6</u>	<u>\$ 527.2</u>	<u>\$ 1,394.3</u>	<u>\$ 1,018.7</u>

The intersegment sales elimination, which is required for the presentation of consolidated net sales, represents the elimination of components sold between our segments.

The following table provides summarized financial information for our segments:

(1) Corporate general costs includes executive and director compensation, certain pension and other retirement benefit costs, and other corporate facilities and administrative expenses not allocated to the segments.

(2) During the three and six months ended June 30, 2021, the Company recorded \$0.2 million and \$0.4 million, respectively, of amortization expense within operating profit associated with an intangible asset acquired during the second quarter of 2020.

Please refer to Note 15, [Other Expense \(Income\)](#), for further discussion of these items.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following discussion is intended to further the reader’s understanding of the consolidated financial condition and results of operations of our Company. It should be read in conjunction with our condensed consolidated financial statements and accompanying notes elsewhere in this Quarterly Report on Form 10-Q (“Form 10-Q”) as well as Management’s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and accompanying notes included in our 2020 Annual Report. Our historical financial statements may not be indicative of our future performance. This Management’s Discussion and Analysis of Financial Condition and Results of Operations contains a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risks discussed in Part I, Item 1A of our 2020 Annual Report and in Part II, Item 1A of this Form 10-Q.

Throughout this section, references to “Notes” refer to the notes to our condensed consolidated financial statements (unaudited) in Part I, Item 1 of this Form 10-Q, unless otherwise indicated.

Non-U.S. GAAP Financial Measures

For the purpose of aiding the comparison of our year-over-year results, we may refer to net sales and other financial results excluding the effects of changes in foreign currency exchange rates. Organic net sales exclude the impact from acquisitions and/or divestitures and translate the current-period reported sales of subsidiaries whose functional currency is other than USD at the applicable foreign exchange rates in effect during the comparable prior-year period. We may also refer to adjusted consolidated operating profit and adjusted consolidated operating profit margin, which exclude the effects of unallocated items. The unallocated items are not representative of ongoing operations, and generally include restructuring and related charges, certain asset impairments, and other specifically-identified income or expense items. The re-measured results excluding effects from currency translation, the impact from acquisitions and/or divestitures, and excluding the effects of unallocated items are not in conformity with U.S. GAAP and should not be used as a substitute for the comparable U.S. GAAP financial measures. The non-U.S. GAAP financial measures are incorporated in our discussion and analysis as management uses them in evaluating our results of operations and believes that this information provides users with a valuable insight into our overall performance and financial position.

Our Operations

We are a leading global manufacturer in the design and production of technologically advanced, high-quality, integrated containment and delivery systems for injectable drugs and healthcare products. Our products include a variety of primary packaging, containment solutions, reconstitution and transfer systems, and drug delivery systems, as well as contract manufacturing, analytical lab services and integrated solutions. Our customers include the leading biologic, generic, pharmaceutical, diagnostic, and additional medical device companies in the world. Our top priority is delivering quality products that meet the exact product specifications and quality standards customers require and expect. This focus on quality includes a commitment to excellence in manufacturing, scientific and technical expertise and management, which enables us to partner with our customers in order to deliver safe, effective drug products to patients quickly and efficiently.

Our business operations are organized into two reportable segments, Proprietary Products and Contract-Manufactured Products. Our Proprietary Products reportable segment offers proprietary packaging, containment and drug delivery products, along with analytical lab services and other integrated services and solutions, primarily to biologic, generic and pharmaceutical drug customers. Our Contract-Manufactured Products reportable segment serves as a fully integrated business, focused on the design, manufacture, and automated assembly of complex devices, primarily for pharmaceutical, diagnostic, and medical device customers. We also maintain collaborations to share technologies and market products with affiliates in Japan and Mexico.

Impact of COVID-19

West has been actively monitoring the COVID-19 situation and its impact globally. Our primary objectives have remained the same throughout the pandemic: to support the safety of our team members and their families and continue to support patients around the world. Throughout the COVID-19 pandemic, our production facilities have continued to operate as they had prior to the pandemic, other than for enhanced safety measures intended to prevent the spread of the virus and higher levels of production at certain plant locations to meet additional customer demand. Our capital and financial resources, including overall liquidity, remain strong. The remote working arrangements and travel restrictions imposed by various governments have had limited impact on our ability to maintain operations, as our manufacturing operations have generally been exempted from stay-at-home orders. However, we cannot predict the impact of the progression of the COVID-19 pandemic on future results due to a variety of factors, including the continued good health of our employees, the ability of suppliers to continue to operate and deliver, the ability of West and its customers to maintain operations, continued access to transportation resources, the changing needs and priorities of customers, any further government and/or public actions taken in response to the pandemic and ultimately the length of the pandemic. We will continue to closely monitor the COVID-19 pandemic in order to ensure the safety of our people and our ability to serve our customers and patients worldwide.

2021 Financial Performance Summary

During the three and six months ended June 30, 2020, we recorded a tax benefit of \$6.9 million and \$12.0 million, respectively, associated with stock-based compensation.

(1) The Company recorded a pension settlement charge within other nonoperating (income) expense, as it determined that normal-course lump-sum payments for our U.S. qualified defined benefit pension plan exceeded the threshold for settlement accounting.

- (2) During the three and six months ended June 30, 2021, the Company recorded \$0.2 million and \$0.4 million, respectively, of amortization expense within operating profit associated with an intangible asset acquired during the second quarter of 2020. During the three and six months ended June 30, 2021, the Company recorded \$0.5 million and \$1.0 million, respectively, or amortization expense in association with an acquisition of increased ownership interest in Daikyo. During the three and six months ended June 30, 2020 the Company recorded \$0.2 million of amortization expense within operating profit associated with an intangible asset acquired during the second quarter of 2020. During the three and six months ended June 30, 2020, the Company recorded \$1.0 million and \$2.0 million, respectively, of amortization expense in association with an acquisition of increased ownership interest in Daikyo.
- (3) During the three months ended June 30, 2021, we recorded a net gain on the sale of one of the Company's cost investments. During the six months ended June 30, 2021, we recorded an impairment charge on one of our cost investments, partially offset by the gain on the sale of a cost investment.
- (4) During the three and six months ended June 30, 2021, the Company recorded a tax benefit of \$1.4 million due to the impact of United Kingdom law changes enacted during the quarter.

RESULTS OF OPERATIONS

We evaluate the performance of our segments based upon, among other things, segment net sales and operating profit. Segment operating profit excludes general corporate costs, which include executive and director compensation, stock-based compensation, certain pension and other retirement benefit costs, and other corporate facilities and administrative expenses not allocated to the segments. Also excluded are items that we consider not representative of ongoing operations. Such items are referred to as other unallocated items for which further information can be found above in the reconciliation from U.S. GAAP to non-U.S. GAAP financial measures.

Percentages in the following tables and throughout the Results of Operations section may reflect rounding adjustments.

Net Sales

The following table presents net sales, consolidated and by reportable segment, for the three months ended June 30, 2021 and 2020:

(\$ in millions)	Three Months Ended June 30,		Percentage Change	
	2021	2020	As-Reported	Organic
Proprietary Products	\$ 587.3	\$ 399.5	47.0 %	39.3 %
Contract-Manufactured Products	136.4	127.8	6.7 %	3.2 %
Intersegment sales elimination	(0.1)	(0.1)	—	—
Consolidated net sales	\$ 723.6	\$ 527.2	37.3 %	30.6 %

Consolidated net sales increased by \$196.4 million, or 37.3%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$35.2 million. Excluding foreign currency translation effects, consolidated net sales for the three months ended June 30, 2021 increased by \$161.2 million, or 30.6%, as compared to the same period in 2020.

Proprietary Products – Proprietary Products net sales increased by \$187.8 million, or 47.0%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$30.6 million. Excluding foreign currency translation effects, net sales for the three months ended June 30, 2021 increased by \$157.2 million, or 39.3%, as compared to the same period in 2020, primarily due to growth in our high-value product offerings, including Westar®, NovaPure®, and FluroTec®-coated components. The three months ended June 30, 2021 included approximately \$117 million in COVID-19 related activity for vaccines, antiviral treatments and treatment of underlying COVID-19 symptoms. The three months ended June 30, 2020 included approximately \$19 million in COVID-19 related activity for antiviral treatments and treatment of underlying COVID-19 symptoms.

Contract-Manufactured Products – Contract-Manufactured Products net sales increased by \$8.6 million, or 6.7%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$4.6 million. Excluding foreign currency translation effects, net sales for the three months ended June 30, 2021 increased by \$4.0 million, or 3.2%, as compared to the same period in 2020, due to an increase in the sale of healthcare-related injection and diagnostic devices.

The intersegment sales elimination, which is required for the presentation of consolidated net sales, represents the elimination of components sold between our segments.

The following table presents net sales, consolidated and by reportable segment, for the six months ended June 30, 2021 and 2020:

(\$ in millions)	Six Months Ended June 30,		Percentage Change	
	2021	2020	As-Reported	Organic
Proprietary Products	\$ 1,131.0	\$ 773.0	46.3 %	39.5 %
Contract-Manufactured Products	263.5	245.9	7.2 %	3.5 %

Consolidated net sales	<u>\$ 1,394.3</u>	<u>\$ 1,018.7</u>	<u>36.9 %</u>	<u>30.8 %</u>

Consolidated net sales increased by \$375.6 million, or 36.9%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$61.8 million. Excluding foreign currency translation effects, consolidated net sales for the six months ended June 30, 2021 increased by \$313.8 million, or 30.8%, as compared to the same period in 2020.

Proprietary Products – Proprietary Products net sales increased by \$358.0 million, or 46.3%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$52.9 million. Excluding foreign currency translation effects, net sales for the six months ended June 30, 2021 increased by \$305.1 million, or 39.5%, as compared to the same period in 2020, primarily due to growth in our high-value product offerings, including Westar®, NovaPure®, Daikyo®, and FluroTec®-coated components. The six months ended June 30, 2021 included approximately \$220 million in COVID-19 related activity for vaccines, antiviral treatments and treatment of underlying COVID-19 symptoms. The six months ended June 30, 2020 included approximately \$19 million in COVID-19 related activity for antiviral treatments and treatment of underlying COVID-19 symptoms.

Contract-Manufactured Products – Contract-Manufactured Products net sales increased by \$17.6 million, or 7.2%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$8.9 million. Excluding foreign currency translation effects, net sales for the six months ended June 30, 2021 increased by \$8.7 million, or 3.5%, as compared to the same period in 2020, due to an increase in the sale of healthcare-related injection and diagnostic devices.

Gross Profit

The following table presents gross profit and related gross profit margins, consolidated and by reportable segment:

(\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,

Consolidated gross profit margin	43.5 %	37.0 %	42.1 %	35.5 %

Consolidated gross profit increased by \$120.0 million, or 61.5%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$13.5 million for the three months ended June 30, 2021, as compared to the same period in 2020. Consolidated gross profit margin increased by 6.5 margin points for the three months ended June 30, 2021, as compared to the same period in 2020.

Consolidated gross profit margin increased by \$224.9 million, or 62.1% for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$24.0 million for the six months ended June 30, 2021, as compared to the same period in 2020. Consolidated gross profit margin increased by 6.6 margin points for the six months ended June 30, 2021, as compared to the same period in 2020.

Proprietary Products - Proprietary Products gross profit increased by \$121.5 million, or 71.1%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$12.6 million. Proprietary Products gross profit margin increased by 7.0 margin points for the three months ended June 30, 2021, as compared to the same periods in 2020, due to a favorable mix of products sold, sales price increases and production efficiencies, partially offset by increased overhead costs including compensation costs.

Proprietary Products gross profit increased by \$223.3 million, or 69.6%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$22.4 million. Proprietary Products gross profit margin increased by 6.6 margin points for the six months ended June 30, 2021, as compared to the same period in 2020, due to a favorable mix of products sold, sales price increases and production efficiencies, partially offset by increased overhead costs including compensation costs.

Contract-Manufactured Products - Contract-Manufactured Products gross profit decreased by \$1.5 million, or 6.2%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$0.9 million. Contract-Manufactured Products gross profit margin decreased by 2.3 margin points for the three months ended June 30, 2021, as compared to the same period in 2020, due to increased overhead costs including compensation costs and an unfavorable mix of products sold, partially offset by production efficiencies.

Contract-Manufactured Products gross profit increased by \$1.6 million, or 3.9%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$1.6 million. Contract-Manufactured Products gross profit margin decreased by 0.6 margin points for the six months ended June 30, 2021, as compared to the same period in 2020, due to increased overhead costs including compensation costs and an unfavorable mix of products sold, partially offset by production efficiencies.

Research and Development (“R&D”) Costs

The following table presents R&D costs, consolidated and by reportable segment:

(\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Proprietary Products	\$ 13.8	\$ 10.8	\$ 26.0	\$ 21.5
Contract-Manufactured Products	—	—	—	—
Consolidated R&D costs	\$ 13.8	\$ 10.8	\$ 26.0	\$ 21.5

Consolidated R&D costs increased by \$3.0 million, or 27.8%, and \$4.5 million, or 20.9% for the three and six months ended June 30, 2021, respectively, as compared to the same period in 2020. Efforts remain focused on the continued investment in self-injection systems development, fluid transfer admixture devices, elastomeric packaging components, and formulation development.

All of the R&D costs incurred during the three and six months ended June 30, 2021 related to Proprietary Products.

Selling, General and Administrative (“SG&A”) Costs

The following table presents SG&A costs, consolidated and by reportable segment and corporate:

	2021	2020	2021	2020
Proprietary Products	\$ 65.0	\$ 44.2	\$ 121.5	\$ 94.1
Contract-Manufactured Products	3.8	3.7	7.5	7.7
Corporate	23.9	29.8	43.9	47.7
Consolidated SG&A costs	\$ 92.7	\$ 77.7	\$ 172.9	\$ 149.5
SG&A as a % of net sales	12.8 %	14.7 %	12.4 %	14.7 %

Consolidated SG&A costs increased by \$15.0 million, or 19.3%, for the three months ended June 30, 2021, respectively, as compared to the same period in 2020, due to an increase in compensation costs, costs related to professional services and an unfavorable foreign currency translation impact of \$2.3 million.

Consolidated SG&A costs increased by \$23.4 million, or 15.7%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020, due to an increase in compensation costs and an unfavorable foreign currency translation impact of \$4.1 million.

Proprietary Products - Proprietary Products SG&A costs increased by \$20.8 million, or 47.1%, for the three months ended June 30, 2021, respectively, as compared to the same period in 2020. Proprietary Products SG&A costs increased primarily due to an increase in compensation costs, costs related to professional services and an unfavorable foreign currency translation impact of \$2.1 million.

Proprietary Products SG&A costs increased by \$27.4 million, or 29.1%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020. Proprietary Products SG&A costs increased primarily due to an increase in compensation costs, costs related to professional services and an unfavorable foreign currency translation impact of \$3.9 million.

Contract-Manufactured Products - Contract-Manufactured Products SG&A costs increased by \$0.1 million, or 2.7% for the three months ended June 30, 2021, as compared to the same period in 2020, and decreased by \$0.2 million, or 2.6% for the six months ended June 30, 2021, as compared to the same period in 2020.

Corporate - Corporate SG&A costs decreased by \$5.9 million, or 19.8%, for the three months ended June 30, 2021, respectively, as compared to the same period in 2020, primarily due to a reduction in compensation costs allocated to the Corporate segment and a decrease in severance related charges.

Corporate SG&A costs decreased by \$3.8 million, or 8.0%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020, primarily due to a reduction in compensation costs allocated to the Corporate segment and a decrease in severance related charges, stock-based compensation costs and costs related to professional services.

Other Expense (Income)

The following table presents other income and expense items, consolidated and by reportable segment, corporate and unallocated items:

Expense (Income) (\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Proprietary Products	\$ (2.7)	\$ 3.6	\$ (2.1)	\$ (0.1)
Contract-Manufactured Products	0.3	0.1	0.2	0.2
Corporate and unallocated	(0.3)	(0.7)	3.1	(0.6)
Consolidated other expense (income)	<u>\$ (2.7)</u>	<u>\$ 3.0</u>	<u>\$ 1.2</u>	<u>\$ (0.5)</u>

Other income and expense items, consisting of foreign exchange transaction gains and losses, gains and losses on the sale of fixed assets, development and licensing income, contingent consideration, fixed asset impairments and miscellaneous income and charges, are generally recorded within segment results.

Consolidated other expense (income) changed by \$5.7 million for the three months ended June 30, 2021, as compared to the same period in 2020, due to fixed asset impairments recorded within the Proprietary Products segment during the three months ended June 30, 2020 that did not recur for the three months ended June 30, 2021, and an increase in restructuring and related charges.

Consolidated other expense (income) changed by \$1.7 million for the six months ended June 30, 2021, as compared to the same period in 2020, due to an increase in restructuring and related charges, a reduction in foreign currency translation impact, and fixed asset impairments recorded within the Proprietary Products segment during the three months ended June 30, 2020 that did not recur for the three months ended June 30, 2021.

Operating Profit

The following table presents adjusted operating profit, consolidated and by reportable segment, corporate and unallocated items:

(\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Proprietary Products	\$ 216.2	\$ 112.2	\$ 398.8	\$ 205.4
Contract-Manufactured Products	18.7	20.5	35.1	33.3
Corporate	(23.7)	(26.7)	(43.5)	(44.7)
Adjusted consolidated operating profit	\$ 211.2	\$ 106.0	\$ 390.4	\$ 194.0
Adjusted consolidated operating profit margin	29.2 %	20.1 %	28.0 %	19.0 %
Unallocated items	0.1	(2.4)	(3.5)	(2.4)
Consolidated operating profit	\$ 211.3	\$ 103.6	\$ 386.9	\$ 191.6
Consolidated operating profit margin	29.2 %	19.7 %	27.7 %	18.8 %

Consolidated operating profit increased by \$107.7 million, or 104.0%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$11.1 million for the three months ended June 30, 2021, as compared to the same period in 2020.

Consolidated operating profit increased by \$195.3 million, or 101.9%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$19.7 million for the six months ended June 30, 2021, as compared to the same period in 2020.

Proprietary Products - Proprietary Products operating profit increased by \$104.0 million, or 92.7%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$10.2 million, due to the factors described above, most notably the sales increase in our high-value product offerings, inclusive of COVID-19 related activity.

Proprietary Products operating profit increased by \$193.4 million, or 94.2%, for the six months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$18.2 million, due to the factors described above, most notably due to the sales increase in our high-value product offerings, inclusive of COVID-19 related activity.

Contract-Manufactured Products - Contract-Manufactured Products operating profit decreased by \$1.8 million, or 8.8%, for the three months ended June 30, 2021, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$0.9 million, due to the factors described above, most notably due to increased overhead costs including compensation costs and an unfavorable mix of products sold.

Contract-Manufactured Products operating profit increased by \$1.8 million, or 5.4%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020, including a favorable foreign currency translation impact of \$1.5 million, due to the factors described above.

Corporate- Corporate costs decreased by \$3.0 million, or 11.2%, for the three months ended June 30, 2021, as compared to the same period in 2020, due to the factors described above.

Corporate costs decreased by \$1.2 million, or 2.7%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020, due to the factors described above.

Unallocated items – Other unallocated items during the three months ended June 30, 2021 consisted of \$1.0 million in restructuring and related costs, \$0.2 million of amortization expense associated with an acquisition of an intangible asset during the second quarter of 2020, and a net gain of \$1.3 million on the sale of one of the Company's cost investments.

Other unallocated items during the six months ended June 30, 2021 consisted of \$2.2 million in restructuring and related costs, \$0.4 million of amortization expense associated with an acquisition of an intangible asset during the second quarter of 2020, and a net loss in our cost investment activity of \$0.9 million.

Other unallocated items during the three and six months ended June 30, 2020 consisted of \$2.2 million in severance related costs and \$0.2 million of amortization expense associated with an acquisition of an intangible asset during the second quarter of 2020. Please refer to Note 15, [Other Expense \(Income\)](#), for further discussion of these items.

Interest Expense, Net

The following table presents interest expense, net, by significant component:

(\$ in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Interest expense	\$ 2.5	\$ 2.3	\$ 4.9	\$ 4.7
Capitalized interest	(0.6)	(0.3)	(1.1)	(0.7)
Interest income	(0.2)	(0.2)	(0.3)	(1.0)
Interest expense, net	<u>\$ 1.7</u>	<u>\$ 1.8</u>	<u>\$ 3.5</u>	<u>\$ 3.0</u>

Interest expense, net, decreased by \$0.1 million, or 5.6%, for the three months ended June 30, 2021, respectively, as compared to the same period in 2020, and increased by \$0.5 million, or 16.7%, for the six months ended June 30, 2021, respectively, as compared to the same period in 2020.

Other Nonoperating (Income) Expense

Other nonoperating (income) expense changed by \$1.2 million for the three months ended June 30, 2021, as compared to the same period in 2020, primarily due to a reduction in the pension settlement charge and by a decrease in U.S. pension interest cost. In each three month period, we determined that normal-course lump-sum payments for our U.S. qualified defined benefit pension plan exceeded the threshold for settlement accounting under U.S. GAAP for the year.

Other nonoperating (income) expense changed by \$2.6 million for the six months ended June 30, 2021, as compared to the same period in 2020, primarily due to a reduction in the pension settlement charge and by a decrease in U.S. pension interest cost. In each six month period, we determined that normal-course lump-sum payments for our U.S. qualified defined benefit pension plan exceeded the threshold for settlement accounting under U.S. GAAP for the year.

Income Tax Expense

The provision for income taxes was \$32.3 million and \$16.0 million for the three months ended June 30, 2021 and 2020, respectively, and the effective tax rate was 15.3% and 15.6%, respectively. The decrease in the effective tax rate is primarily due to the release of a reserve related to withholding tax, offset partially by the mix in profit for the three months ended June 30, 2021 as compared to the same period in 2020.

The provision for income taxes was \$61.0 million and \$31.0 million for the six months ended June 30, 2021 and 2020, respectively, and the effective tax rate was 15.8% and 16.4%, respectively. The decrease in the effective tax rate is primarily due to the release of a reserve related to withholding tax and increase in stock-based compensation deduction, offset partially by the mix in profit for the six months ended June 30, 2021 as compared to the same period in 2020.

Equity in Net Income of Affiliated Companies

Equity in net income of affiliated companies represents the contribution to earnings from our 49% ownership interest in Daikyo, and our 49% ownership interest in five companies majority-owned by a long-time partner located in Mexico. Please refer to Note 7, [Affiliated Companies](#), for further discussion. Equity in net income of affiliated companies increased by \$3.4 million for the three months ended June 30, 2021, as compared to the same period in 2020, due to favorable operating results at Daikyo and the Mexico affiliates, partially offset by amortization expense related to our increase in ownership interest in Daikyo of \$0.5 million.

Equity in net income of affiliated companies increased by \$5.6 million for the six months ended June 30, 2021, as compared to the same period in 2020, due to favorable operating results at Daikyo and the Mexico affiliates, partially offset by amortization expense related to our increase in ownership interest in Daikyo of \$1.0 million.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The following table presents cash flow data for the six months ended June 30:

(\$ in millions)	2021	2020
Net cash provided by operating activities	\$ 233.1	\$ 205.2
Net cash used in investing activities	\$ (110.4)	\$ (72.8)
Net cash used in financing activities	\$ (156.1)	\$ (121.2)

Net Cash Provided by Operating Activities – Net cash provided by operating activities increased by \$27.9 million for the six months ended June 30, 2021, as compared to the same period in 2020, primarily due to improved operating results, offset by increases in working capital and timing of tax payments in 2021.

Net Cash Used in Investing Activities – Net cash used in investing activities increased by \$37.6 million for the six months ended June 30, 2021, as compared to the same period in 2020, due to the increase in capital expenditures in 2021 to meet customer demand.

Net Cash Used in Financing Activities – Net cash used in financing activities increased by \$34.9 million for the six months ended June 30, 2021, as compared to the same period in 2020, primarily due to increases in purchases under our share repurchases.

Liquidity and Capital Resources

The table below presents selected liquidity and capital measures:

(\$ in millions)	June 30, 2021	December 31, 2020
Cash and cash equivalents	\$ 576.2	\$ 615.5
Accounts receivable, net	\$ 480.5	\$ 385.3
Inventories	\$ 345.2	\$ 321.3
Accounts payable	\$ 205.1	\$ 213.1
Debt	\$ 254.1	\$ 255.2
Equity	\$ 2,032.6	\$ 1,854.5
Working capital	\$ 1,004.4	\$ 870.3

Cash and cash equivalents include all instruments that have maturities of ninety days or less when purchased. Working capital is defined as current assets less current liabilities.

Cash and cash equivalents – Our cash and cash equivalents balance at June 30, 2021 consisted of cash held in depository accounts with banks around the world and cash invested in high-quality, short-term investments. The cash and cash equivalents balance at June 30, 2021 included \$239.8 million of cash held by subsidiaries within the U.S., and \$336.4 million of cash held by subsidiaries outside of the U.S. During the six months ended June 30, 2021, we purchased 479,000 shares of our common stock under the share repurchase program at a cost of \$137.1 million, or an average price of \$286.23 per share.

Working capital – Working capital at June 30, 2021 increased by \$134.1 million, or 15.4%, as compared to December 31, 2020, which includes an unfavorable foreign currently translation impact \$7.1 million. Excluding the impact of currency exchange rates, accounts receivable and inventories increased by \$101.3 million and \$28.3 million, respectively, while cash and cash equivalents and total current liabilities decreased by \$33.4 million and \$23.2 million, respectively. The increase in accounts receivable was due to increased sales activity. The increase in inventories that occurred in the period was to ensure we have sufficient inventory on hand to support the needs of our customers. The decrease in total current liabilities was primarily due to the annual incentive bonus payment made during the first quarter of 2021 and timing of tax payments.

Debt and credit facilities – The \$1.1 million decrease in total debt at June 30, 2021, as compared to December 31, 2020, resulted from debt repayments under our Term Loan.

Our sources of liquidity include our Credit Facility. At June 30, 2021, we had no outstanding borrowings under the Credit Facility. At June 30, 2021, the borrowing capacity available under the Credit Facility, including outstanding letters of credit of \$2.4 million, was \$297.6 million. We do not expect any significant limitations on our ability to access this source of funds.

Pursuant to the financial covenants in our debt agreements, we are required to maintain established interest coverage ratios and to not exceed established leverage ratios. In addition, the agreements contain other customary covenants, none of which we consider restrictive to our operations. At June 30, 2021, we were in compliance with all of our debt covenants.

We believe that cash on hand and cash generated from operations, together with availability under our Credit Facility, will be adequate to address our foreseeable liquidity needs based on our current expectations of our business operations, capital expenditures and scheduled payments of debt obligations.

Commitments and Contractual Obligations

A table summarizing the amounts and estimated timing of future cash payments resulting from commitments and contractual obligations was provided in our 2020 Annual Report. During the three months ended June 30, 2021, there were no material changes outside of the ordinary course of business to our commitments and contractual obligations.

OFF-BALANCE SHEET ARRANGEMENTS

At June 30, 2021, we had no off-balance sheet financing arrangements other than unconditional purchase obligations incurred in the ordinary course of business and outstanding letters of credit related to various insurance programs, as noted in our 2020 Annual Report.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There have been no changes to the Critical Accounting Policies and Estimates disclosed in Part II, Item 7 of our 2020 Annual Report.

NEW ACCOUNTING STANDARDS

For information on new accounting standards that were issued but not yet adopted, during the three months ended June 30, 2021, and the impact, if any, on our financial position or results of operations, see Note 2, [New Accounting Standards](#).

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Our disclosure and analysis in this Form 10-Q contains some forward-looking statements that are based on management’s beliefs and assumptions, current expectations, estimates and forecasts. We also provide forward-looking statements in other materials we release to the public, as well as oral forward-looking statements. Such statements provide our current expectations or forecasts of future events. They do not relate strictly to historical or current facts. We have attempted, wherever possible, to identify forward-looking statements by using words such as “plan,” “expect,” “believe,” “intend,” “will,” “estimate,” “continue” and other words of similar meaning in conjunction with, among other things, discussions of future operations and financial performance, as well as our strategy for growth, product development, market position and expenditures. All statements that address operating performance or events or developments that we expect or anticipate will occur in the future - including statements relating to sales and earnings per share growth, cash flows or uses, and statements expressing views about future operating results - are forward-looking statements.

Forward-looking statements are based on current expectations of future events. The forward-looking statements are, and will be, based on management’s then-current views and assumptions regarding future events and operating performance, and speak only as of their dates. Investors should realize that, if underlying assumptions prove inaccurate or unknown risks or uncertainties materialize, actual results could vary materially from our expectations and projections. Investors are therefore cautioned not to place undue reliance on any forward-looking statements.

The following are some important factors that could cause our actual results to differ from our expectations in any forward-looking statements:

- sales demand and our ability to meet that demand;
- competition from other providers in our businesses, including customers’ in-house operations, and from lower-cost producers in emerging markets, which can impact unit volume, price and profitability;
- customers’ changing inventory requirements and manufacturing plans that alter existing orders or ordering patterns for the products we supply to them;

- interruptions or weaknesses in our supply chain, including from reasons beyond our control such as extreme weather, longer-term climate changes, natural disasters, pandemic, war, accidental damage, or unauthorized access to our or our customers’ information and systems, which could cause delivery delays or restrict the availability of raw materials, key purchased components and finished products;
- the timing, regulatory approval and commercial success of customer products that incorporate our products and systems;
- whether customers agree to incorporate our products and delivery systems with their new and existing drug products, the ultimate timing and successful commercialization of those products and systems, which involves substantial evaluations of the functional, operational, clinical and economic viability of our products, and the rate, timing and success of regulatory approval for the drug products that incorporate our components and systems;
- the timely and adequate availability of filling capacity, which is essential to conducting definitive stability trials and the timing of first commercialization of customers’ products in Crystal Zenith prefilled syringes;
- average profitability, or mix, of the products sold in any reporting period, including lower-than-expected sales growth of our high-value proprietary product offerings;
- maintaining or improving production efficiencies and overhead absorption;
- dependence on third-party suppliers and partners, some of which are single-source suppliers of critical materials and products, including our Japanese partner and affiliate, Daikyo;
- the loss of key personnel or highly-skilled employees;
- the availability and cost of skilled employees required to meet increased production, managerial, research and other needs, including professional employees and persons employed under collective bargaining agreements;
- the successful and timely implementation of price increases necessary to offset rising production costs, including raw material prices, particularly petroleum-based raw materials;
- the cost and progress of development, regulatory approval and marketing of new products;
- our ability to obtain and maintain licenses in any jurisdiction in which we do business;
- the relative strength of USD in relation to other currencies, particularly the Euro, SGD, the Danish Krone, Yen, Colombian Peso, Brazilian Real, and the South Korean Won; and
- the potential adverse effects of global healthcare legislation on customer demand, product pricing and profitability.

This list sets forth many, but not all, of the factors that could affect our ability to achieve results described in any forward-looking statements. Investors should understand that it is not possible to predict or identify all of the factors and should not consider this list to be a complete statement of all potential risks and uncertainties. For further discussion of these and other factors, see the risk factors disclosed in Part I, Item 1A of our 2020 Annual Report as well as Part II, section 1A of this quarterly report.

Except as required by law or regulation, we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our exposure to market risk or the information provided in Part II, Item 7A of our 2020 Annual Report.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure controls are controls and procedures designed to reasonably ensure that information required to be disclosed in our reports filed under the Exchange Act, such as this quarterly report, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Our disclosure controls include some, but not all, components of our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our management, including our CEO and CFO, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934), as of the end of the period covered by this quarterly report on Form 10-Q. Based on this evaluation, our CEO and CFO have concluded that, as of June 30, 2021, our disclosure controls and procedures are effective.

Changes in Internal Controls

During the quarter ended June 30, 2021, there have been no changes to our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

There are no material changes to the risk factors disclosed in Part I, Item 1A of our 2020 Annual Report.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended June 30, 2021, there were no purchases of our common stock made by us or any of our “affiliated purchasers” as defined in Rule 10b-18(a)(3) under the Exchange Act.

ITEM 6. EXHIBITS

CERTIFICATION

I, Bernard J. Birkett, certify that:

1. I have reviewed this quarterly report on Form 10-Q of West Pharmaceutical Services, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
